“ I can't believe I've just found out that donald is gone. Donald and david were 2 of my fist boyfriends. I met them at the skating rink in the 6th grade, and then we went 2 Riverview East Junior High School together. When I look back at those times most of my memories include them. I spoke to Don a little while back and know what a hard time he was having with the loss of David. I haven't talked to him in a while and just realized that his birthday was yesterday and was going to try to contact him and see how he was doing and that is when I read all of this it truly makes me very sad. I know you are in a better place and I hope you check on in from time to time from heaven. See you again one day I'm sure my old friend. This is so incredibly sad to hear that we lost you all both at such a young age.

“ As I sit here and think of all of our escapades together the one memory that stands out is from a long time ago at Riverview Gardens Elementry when this pair of twins with there black cowboy boots and black leather Fonzi jackets showed up . We were all a little leary at first but how were we to know the impact these two boys were going to have on our lives. I am proud to say that I was good friends with both brothers but Donald was a brother to me and there will not be a day go buy that I don't think of him and all of our great adventures we shared over our 40 plus year friendship Love You Brother RIP!

I had not seen him in years but I remember Donald and David pushing me on my tricycle when they were 5 or 6 on Angelica st. in St.louis, city where we were born. I've thought about those times a lot over the years but It really hits home now. He will be missed. The last thing I remember him saying was he wished he could be with his brother Dave. You made it Buddie, I'll never forget ya's. Larry Parker
