“ You’re forever my yang. I love you to the moon and back, and life without you is a lot less filled with sunshine. I never knew how much I needed you, until you were gone. I wish we would’ve been better to you, when you were here. I miss your laugh, your silly made up words, your lashes, how you called me “Kate”, how you never judged and how you always loved. You’re forever loved, boo.

“ My extraordinary, one of a kind, beautiful sweet sister. I will forever miss our good times, the awesome laughs we had, our love for different foods, music, and cultures. To be your best friend and sister was truly a honor and if I had to do it all over again, I wouldn't change a thing. Our journey is what made us who we are and was our blueprint to learning what we needed to improve and change about ourselves. You my friend were making those changes, and I commend you now just as I did in you're presence. I love you always and forever.
